

Dear Friends,

The big news in our corner of the world is that Jonathan hurt his back in October and had surgery for a ruptured disk in January. The doctor released him in March and he is now working hard because there is lots going on.

We decided that it is time to go big or go home with our honeybees. To that end we ordered several new packages and adopted new practices. Currently we have 8 hives and when/if we have honey to share you will be the first to know!

3 new heifers joined the cow herd to be finished on our chemical free pastures and available as grass finished beef this fall. We still have Belted Galloway beef available in different cuts. For pricing and availability visit our updated website – www.happilyeverafterfarm.com/our-products/.

The latest batch of meat chickens began their march across the field and will be ready the first of June and the longer days encourage the laying hens to do their thing so egg production has increased three fold.

Now that the weather has turned we are blessed with work. May you enjoy your work as much as we do!

Jonathan & Judith

PS. The MS Walk happens every spring. As a cause that hits close to home, we had a yard sale April 12th to raise money for “the J team.” Visit the team’s web page - http://main.nationalmssociety.org/site/TR?team_id=385109&pg=team&fr_id=23458&et=np_L_WwlmacbHTVzPbuY9aw
